Draft Integrated Action Plan

2023-MAR-27

Draft Integrated Action Plan & Priority Actions

Full Library of Actions

INTEGRATED ACTION PLAN PRIORITY ACTIONS

The priority list represent actions that Council have identified from the library of actions as priorities over the next 4 years to implement City Plan. They are a subset of a broader 'library' of actions to implement *City Plan* overall. This list is intended to be reviewed and updated every tear. The actions identified with a star represent Council Motions that were previously passed. Actions identified with a money symbol represent those endorsed in the 2023 – 2028 five year Financial Plan.

$ 2023 – 2027 Financial Plan ★ Council Motions

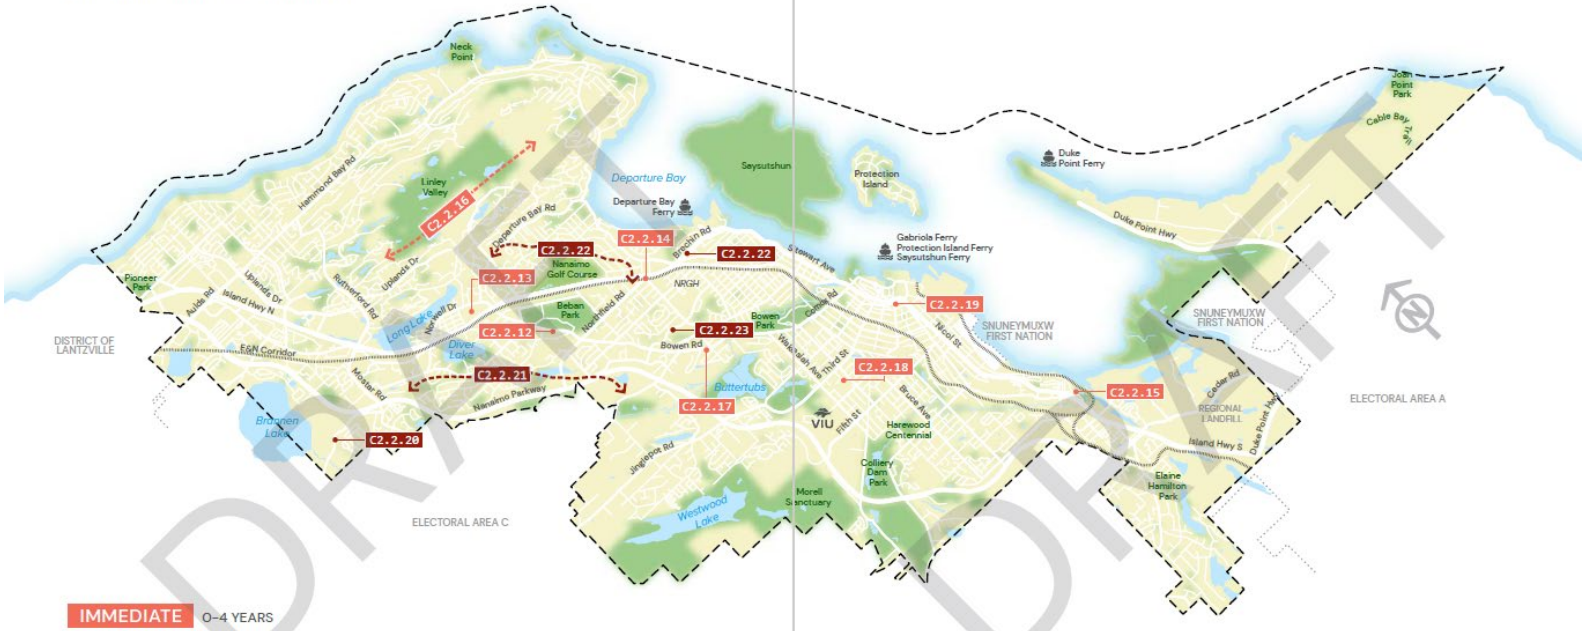

Ref.	Programs & Projects	Connected City Plan Policies
A GREEN NANAIMO		
GHG EMISSION REDUCTION		
ONGOING (Ongoing & Repeated)		
1	Update corporate policies for City owned facilities to reflect current and future energy and GHG emissions reduction requirements and other green building practices.	▸ C1.1.5
IMMEDIATE (0 – 4 Years)		
2 ★	Advocate to the Province of BC for a moratorium on all new natural gas connections and discourage fuel switching.	▸ C1.1.7
3 $ ★	Confirm final steps with respect to Nanaimo's Step Code implementation strategy, to ensure higher step code compliance requirements come into effect before the Provincial mandated implementation timelines.	▸ C1.1.8
4 $	Complete an inventory of energy use and GHG emissions of all community buildings, to identify building energy upgrade opportunities and challenges by building type. Depending on results, develop a financing program for home energy upgrades.	▸ C1.1.5
5	Update development permit requirements to include energy, climate, and water efficiency from a site and building design perspective. Develop guidelines that may include passive design techniques, shading, rainwater management, green roofs, building orientation, Water Wise landscape, building energy systems and renewable power generation, among other topics.	▸ C1.1.8
6 $	Conduct a City fleet electrification study.	▸ C1.1.9
CLIMATE ADAPTATION & HAZARD MANAGEMENT		
IMMEDIATE (0 – 4 Years)		
7	Use a climate risk and vulnerability assessment method to be used for reviewing large capital infrastructure investments in the city (e.g., a Public Infrastructure Engineering Vulnerability Committee (PIEVC).	▸ C1.2.7
8	Develop a Green Shores strategy to help naturalize the shoreline to protect waterfront properties from flood risk and landslide, while also protecting and restoring habitats.	▸ C1.2.6
